## FULL-STACK WEB DEVELOPER

### Objective

Seeking to grow and build my full-stack development skills, as well as tell the stories of products and people through interactive websites and apps.

### Related Experience

#### General Assembly

A 12-week web-development immersive program which covered object-oriented programming and fluency in full-stack web development in JavaScript and Ruby.

### Projects

**Wine11** (*dry-journey-2728.herokuapp.com*) Inspired by my love of wine and wine tasting, Wine11 was created as a source to be able to search for wineries and save them as favorites for future visits or purchases.  
Technologies: Javascript, Mapbox API, YELP API, Postgres, Express, Node.js

**Interest** (*ininterest.herokuapp.com*) Collaborated with a group of three people to build a better Instagram website that allows for a search feature which the current Instagram website is currently lacking.  
Technologies: Ruby on Rails, jQuery/AJAX, Postgres, Instagram API

**WhoBrings** (*whobrings.herokuapp.com*) Finding a gap in the marketplace, I decided to build a site that allows for event planning with friends, and make sortable and sharable task lists. Technologies: Ruby on Rails, jQuery/AJAX, Postgres, Facebook API

### Technical Skills

#### Languages

JavaScript, Ruby, HTML, CSS, Sass

#### Frameworks

Node.js, ExpressJS, Rails

#### Database Tools

PostgreSQL

Sequelize

Express

Bootstrap

jQuery

ActiveRecord

#### Authorization

Passport Local, Bcrypt, OAuth

#### Testing

Mocha, Chai, RSpec, JSON

Git/GitHub, Heroku, jQuery, AJAX, JSON, Bootstrap
